Art Unit: 1642

DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-10, 47-51, and 61, drawn to recombinant respiratory syncytial viruses (RSV) with temperature sensitive amino acid substitutions and methods of making recombinant RSV, classified in class 435, subclass 235.1.
 - II. Claims 1, 11-14, 26-28, and 47-53 drawn to recombinant RSV with a modified SH gene, classified in class 435, subclass 235.1.
 - III. Claims 1, 11, 20, 31-34, 47-51, 54, 56-58, 61, and 62 drawn to recombinant RSV with heterologous RSV genes, classified in class 424, subclass 199.1.
 - IV. Claims 1, 21, 26, 35, 47-51, and 59 drawn to recombinant RSV with genome modifications to encode non-RSV proteins, classified in class 424, subclass 199.1.
 - V. Claims 1, 11, and 19, drawn to recombinant RSV with a nucleotide modification in a translational start codon, classified in class 435 subclass 235.1.
 - VI. Claims 1, 11, 18 and 38, drawn to recombinant RSV with a nucleotide modification in a termination codon or a GS or GE transcription signal, classified in class 435, subclass 235.1.
 - VII. Claims 1, 11, 22-25, 30, 36, 37, 47-51, 54, 55, and 60, drawn to recombinant RSV with a parainfluenza (PIV) gene classified in class 424, subclass 199.1.

Art Unit: 1642

VIII. Claims 1, 11, 15-17, 29, 30, 47-51, 54, and 55 drawn to recombinant RSV with a nucleotide modification to a cis-acting regulatory sequence classified in class 435, subclass 235.1.

IX. Claims 1, 26, and 38-46, drawn to a vaccine and methods of stimulating the immune system, classified in class 424, subclass 211.1.

2. The inventions are distinct, each from the other because of the following reasons:

The products of Groups I-VIII have different structures and different characteristics.

Inventions I, IV, VI and IX are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the viruses of Groups I, IV, and VI can be used in the materially different process of diagnostic testing.

It is noted that claims 1, 11, 26, 30, 38, 47-51, 54, 55, and 61 are included in more than a single group. These claims will be examined with the elected group to the extent that they read on that group.

Art Unit: 1642

3. Because these inventions are distinct for the reasons given above and the search required for each of the groups is not required for the other groups, restriction for examination purposes as indicated is proper.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brenda Brumback whose telephone number is (703) 306-3220. If the examiner can not be reached, inquiries can be directed to Supervisory Patent Examiner Anthony Caputa whose telephone number is (703) 308-3995. Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-0196. Papers related to this application may be submitted to Group 1600 by facsimile transmission. Papers should be faxed to Examiner Brenda Brumback, Art Unit 1642 and should be marked "OFFICIAL" for entry into prosecution history or "DRAFT" for consideration by the examiner without entry. The Art Unit 1642 FAX telephone number is (703)-305-3014. FAX machines will be available to receive transmissions 24 hours a day. In compliance with 1096 OG 30, the filing date accorded to each OFFICIAL fax transmission will be determined by the

Art Unit: 1642

FAX machine's stamped date found on the last page of the transmission, unless that date is a Saturday, Sunday or Federal Holiday with the District of Columbia, in which case the OFFICIAL date of receipt will be the next business day.
